I'm an enthusiastic and detail-oriented Frontend Software Engineer seeking an entry-level position with Company to use my skills in coding, troubleshooting complex problems, and assisting in the timely completion of projects. I primarily focus on writing clean, elegant and efficient code. I attended a multiple coding bootcamp to learn new languages while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

## EDUCATION

### Bachelor of Technology (BTech) Inderprastha Engineering College

07/2019 - 09/2023

7.5SGPA

Courses

- Computer Science

### Senior Secondary - 12

Rajkiya Sarvodaya Bal Vidyalaya

2019

82.2%

Science

- Physics, Chemistry,  
Mathematics, Biology,  
English

## WORK EXPERIENCE

### ReactJs Developer at DJT Corp.

->Intern

07/2022 - 10/2022

sector-125 Noida

Ltd. (DJT) was established in 2017. We have promoted businesses in Retail, Insurance Broking and Financial Services in New Delhi, Noida (Uttar Pradesh) and Gurugram (Haryana) and have plans to expand these businesses across the country while adding new lines of businesses in the coming years

Learned from experience

- Crafted an engaging contact form with Firebase, seamlessly managing data through CRUD operations. Elevated user experience with robust form validation and secure Firebase authentication. The project offers a visually appealing and streamlined interaction for users.
- Developed a dynamic and visually appealing finance website during my internship, leveraging HTML, CSS, JavaScript, and Tailwind CSS. Implemented intuitive user interfaces, enhancing the overall user experience and showcasing my proficiency in front-end web development
- Enhanced a prebuilt dashboard by integrating role-based authentication via Firebase and implementing protected routes using React-Router. Additionally, introduced a dynamic table displaying the current count of items in the cart, ensuring a secure and personalized user experience within the application.
- Made Customer Dashboard including qr scanning, mqtt(socket), database with mongodb, api, and payment gateway with stripe

## SKILLS

Java Script

Sanity

Firebase

ReactJs

HTML

CSS

MongoDb

Nodejs

Expressjs

Socket.io

TypeScript

3JS

ReactThreeFiber

TRPC

Prisma

Redux-Toolkit

Zod

Nextjs-13

## PERSONAL PROJECTS

### Djt Finserv

- Developed a dynamic and visually appealing finance website during my internship, leveraging HTML, CSS, JavaScript, and Tailwind CSS. Implemented intuitive user interfaces, enhancing the overall user experience and showcasing my proficiency in front-end web development.
- <https://www.djtfinserv.in/>
- <https://djt-finserve.netlify.app/>

### Picture Gallery -MERN

- Crafted a fully responsive MERN stack image gallery project with seamless profile selection, image uploading, and deletion functionalities. Implemented JWT for secure cookie encryption, emphasizing a commitment to both user experience and data security in web development and database management
- <https://imagegallery-eaha.onrender.com/>

### Kabadi (Scrap Dealer)-MERN(Typescript-trpc)

- Crafted a fully responsive MERN stack image gallery project with seamless profile selection, image uploading, and deletion functionalities. Implemented JWT for secure cookie encryption, emphasizing a commitment to both user experience and data security in web development.
- <https://kabadi.vercel.app/>

### Nitin's Folio -MERN(Typescript-trpc)

- Designed a fully responsive personal portfolio with TypeScript, tRPC, Prisma DB, and React. Enhanced user experience with subtle GSAP animations, highlighting a seamless blend of technology and design expertise.
